- 57 1. Are you:  Male  Female
- 56 2a. Ethnicity - Are you: (Darken one oval.)  Hispanic or Latino  Not Hispanic or Latino
- 55 2b. Race - Are you: (Choose one or more.)  American Indian or Alaska Native  Asian  Black or African American  Native Hawaiian or Other Pacific Islander  White
- 54 3. Describe your educational background: (Darken all ovals that apply.)
- 53  Undergraduate major in mathematics or mathematics education
- 52  Undergraduate minor in mathematics or mathematics education
- 51  Graduate-level major or minor in mathematics or mathematics education
- 50  Certification to teach mathematics
- 49  None of the above
- 48 4. How many years have you taught prior to this school year? (Darken one oval.)
- 47 0-2      3-5      6-10      11-15      16-20      21-25      26 or more

27 **The National Science Foundation's Local Systemic Change (LSC) through Teacher Enhancement  
26 Program's Core Evaluation**  
25  
24

23 You have been selected to participate in the nationwide evaluation of the federally-funded Local Systemic Change (LSC)  
22 program. LSC is a National Science Foundation Teacher Enhancement program that has funded more than 80 local projects  
21 that have offered science and/or mathematics professional development to teachers around the country. **The cover letter  
20 accompanying this questionnaire identifies the LSC project in your area, as well as the instructional materials that are  
19 the focus of that LSC project.**  
18

17 Several times over the course of the LSC, each project will administer questionnaires to a sample of teachers who are targeted  
16 to participate in the local project's professional development activities. Note that you may be asked to complete this  
15 questionnaire even if you have not yet participated in the project's professional development; your response is important,  
14 regardless of whether you have already participated. A small number of randomly-selected teachers in each project is asked to  
13 provide additional information in interviews, sometimes in conjunction with a classroom visit. In order to continue receiving  
12 federal funding, each LSC project must participate in this national evaluation.  
11

10 Data collection procedures have been developed to ensure high-quality data and protect teacher confidentiality. Your responses  
9 will be kept strictly confidential; they will be combined with the responses of the other teachers in your project and used only  
8 for the LSC evaluation. The name label and numbering on this questionnaire are used to help local projects deliver  
7 questionnaires to the proper teachers and follow up with teachers who have not responded; no information identifying  
6 individual teachers will be reported under any circumstances. After you complete the questionnaire, you should remove the  
5 name label and return the questionnaire as specified by your local LSC project.

## B. Teacher Opinions and Preparedness

7. Please provide your opinion about each of the following statements.  
(Darken one oval on each line.)

	Strongly Disagree	Disagree	No Opinion	Agree	Strongly Agree
a. Students generally learn mathematics best in classes with students of similar abilities.	①	②	③	④	⑤
b. I feel supported by colleagues to try out new ideas in teaching mathematics.	①	②	③	④	⑤
c. Mathematics teachers in this school have a shared vision of effective mathematics instruction.	①	②	③	④	⑤
d. Mathematics teachers in this school regularly share ideas and materials related to mathematics.	①	②	③	④	⑤
e. Mathematics teachers in this school are well-supplied with materials for investigative mathematics instruction.	①	②	③	④	⑤
f. I have time during the regular school week to work with my peers on mathematics curriculum and instruction.	①	②	③	④	⑤
g. I have adequate access to calculators for teaching mathematics.	①	②	③	④	⑤
h. I have adequate access to computers for teaching mathematics.	①	②	③	④	⑤
i. I enjoy teaching mathematics.	①	②	③	④	⑤
j. I am well-informed about the NCTM <i>Standards</i> for the grades I teach.	①	②	③	④	⑤
k. The mathematics program in this school is strongly supported by local organizations, institutions, and/or businesses.	①	②	③	④	⑤

8. In the left section, please rate each of the following in terms of its **importance** for effective mathematics instruction in the grades you teach. In the right section, please indicate how **prepared** you feel to do each one.  
(Darken one oval in each section on each line.)

	Importance				Preparation			
	Not Important	Some-what Important	Fairly Important	Very Important	Not Adequately Prepared	Some-what Prepared	Fairly Well Prepared	Very Well Prepared
a. Provide concrete experience before abstract concepts.	①	②	③	④	①	②	③	④
b. Develop students' conceptual understanding of mathematics.	①	②	③	④	①	②	③	④
c. Take students' prior understanding into account when planning curriculum and instruction.	①	②	③	④	①	②	③	④
d. Practice computational skills and algorithms.	①	②	③	④	①	②	③	④
e. Make connections between mathematics and other disciplines.	①	②	③	④	①	②	③	④
f. Have students work in cooperative learning groups.	①	②	③	④	①	②	③	④
g. Have students participate in appropriate hands-on activities.	①	②	③	④	①	②	③	④
h. Engage students in inquiry-oriented activities.	①	②	③	④	①	②	③	④
i. Have students prepare project/laboratory/research reports.	①	②	③	④	①	②	③	④
j. Use calculators.	①	②	③	④	①	②	③	④
k. Use computers.	①	②	③	④	①	②	③	④
l. Engage students in applications of mathematics in a variety of contexts.	①	②	③	④	①	②	③	④
m. Use performance-based assessment.	①	②	③	④	①	②	③	④
n. Use portfolios.	①	②	③	④	①	②	③	④
o. Use informal questioning to assess student understanding.	①	②	③	④	①	②	③	④

### D. LSC Professional Development

Questions 21-27 refer to the NSF-supported Local Systemic Change (LSC) program. Please refer to the cover letter accompanying this questionnaire for information about the LSC project activities and designated materials in your district. **If you have not yet participated in LSC professional development, darken this oval  and skip to Question 26.**

21. To what extent is each of the following true of LSC mathematics-related professional development in your district? (Darken one oval on each line.)

	Not at all				To a great extent
a. I am involved in planning my mathematics-related professional development.	1	2	3	4	5
b. I am encouraged to develop an individual professional development plan to address my needs and interests related to mathematics education.	1	2	3	4	5
c. I am given time to work with other teachers as part of my professional development.	1	2	3	4	5
d. I am given time to reflect on what I've learned and how to apply it to the classroom.	1	2	3	4	5
e. I receive support as I try to implement what I've learned.	1	2	3	4	5

22. Approximately how many **total hours** have you spent on formal, LSC-provided professional development in mathematics/mathematics education **since the LSC project began?** (Darken one oval.)

- 0       10-19       40-59       80-99       130-159       200 or greater  
 1-9       20-39       60-79       100-129       160-199

23. Please indicate the number of times you have participated in each of the following activities **during this school year.** (Darken one oval on each line.)

	0	1-2	3-4	5-6	7 or more
a. Participated in an LSC academic year study group/discussion group.	1	2	3	4	5
b. Was "coached" on my teaching by an LSC teacher leader/staff person based on a classroom observation.	1	2	3	4	5
c. Received assistance from an LSC "teacher leader" in my school.	1	2	3	4	5
d. Received assistance from an LSC staff person in my district.	1	2	3	4	5
e. Received assistance from an LSC-designated mathematician/mathematics educator from a college/university/museum/industry.	1	2	3	4	5
f. Read messages in a Listserv discussion sponsored by the LSC.	1	2	3	4	5
g. Posted messages to a Listserv discussion sponsored by the LSC.	1	2	3	4	5
